Figure 1 is a schematic diagram of a circular structure. It features a central circular region surrounded by a ring. This ring is defined by two concentric circles. The space between these two circles contains a series of small circles, each with a dashed outline, arranged in a ring. A dashed line, labeled 'X', follows the path of these small circles. The outermost boundary of the structure is a solid circle, labeled '3'. The small circles are labeled '2' and '5'.
